GRAPPA DI NEBBIOLO DA BARBARESCO
GRAPPA DI DOLCETTO
GRAPPA DI CHARDONNAY
GRAPPA DI MOSCATO

Their organoleptic characteristics are related to fingerprint varieties of vines from which it originates.

Light color with the brilliance of the crystal

Intense bouquet, ethereal characteristic

Dry, warm, soft and enveloping.

Long and elegant aromatic persistence.

Our grappa-strict "varietal" - are obtained by careful distillation of fresh grapes, lightly pressed in special steam stills.

DISTILLATO DI UVA MOSCATO "MIACARA"

The wort, fermented with the skins of Muscat grapes we get our vineyards, by distillation in copper stills special, this special rare and delicate elixir from the romantic name of "my dear".

The color is crystal clear.

The smell is aromatic, intense, incredibly fine, typical Moscato grapes ripe.

The soft flavor, characterized by an abundance of sweet fruity and a long finish, gives this distillate a very elegant and refined delicacy.
