Langhe Chardonnay 2013, Pertinace

www.selectedwines.no

Another great white wine made from grapes grown on vineyards at different altitudes.

Town: Treiso.

Solar Exposure: South, South-Est.

Vine: Chardonnay

Breeding kind: Guyot system.

Wine making: Following the off-the-skins fermentation in stainless steel at a temperature of no higher than 17°C., the wine is cooled down to 7°C, and stored in the same tanks on its lees for more than six months. This technique enables us to offer our customers a wine of great elegance in which Chardonnay's extraordinary varietal properties are highlighted.

Colour: Light straw yellow, with delicate greenish undertones.

Fragrance: Very intense, expansive bouquet that lingers on the nose, showing flowers and fresh fruit.

Taste: Round and smooth on the palate, with a nicely luscious, dry taste and good body.

Surface: 2,5 Ha.

Power of Wine for hectare: 90,00 HI
